

UNESCO CHAIR SUSTAINABLE WATER SECURITY

at FLORIDA INTERNATIONAL UNIVERSITY

Water: a vital resource

Water Security: a key challenge for the 21st century

IHP-VIII 2014-2021

Water Security: Responses to Local, Regional, and Global Challenges

Institute for Water and the Environment

Mainstreams the Global Water for Sustainability (GLOWS) program international 13 years experience supporting countries around the globe attain sustainable water security

University-wide research and capacity building institute, with a multi-disciplinary focus and emphasis on water, global change and environmental conservation

Water Security Challenges

- The new conceptualization of water security beyond quantity and quality.
- What elements / characteristics/ conditions are key to water security today
- Where, when and how to assess these key elements that characterize water security?
- Identifying and defining actors.

The UNESCO FIU-InWE Chair will focus efforts on :

- ▶ advancing the knowledge needed to address complex water security issues, both locally and globally,
- ▶ Promoting and coordinating interdisciplinary research, education, capacity building and public engagement
- ▶ linking academics, students, researchers and water professionals with local, regional, and international programs and stakeholders to foster water sustainability.

The activities coordinated by the Chair include, but are not limited to:

- Applied research,
- Support development of innovative technologies and methods
- Revision of capacity building actions and training
- Specialized events: workshops, conferences,
- knowledge sharing cooperation
- Publications
